| <p style="text-align: center;"><b><u>BRITISH HORSERACING AUTHORITY (BHA) REGULATIONS FOR ARABIAN HORSERACING</u></b><br/><b><u>AND THE BHA RULES OF RACING</u></b></p> |
|--|

All Owners and Trainers should familiarize themselves with the British Horseracing Authority (BHA) Regulations for Arabian Horseracing and the BHA Rules of Racing. These can be found online at:

<https://www.aroracing.co.uk/members/registration-forms/>

<http://rules.britishhorseracing.com/>

#### **INTERNATIONAL AGREEMENT**

ARO operate under the terms and conditions of the IFAHR International agreement for Arabian Horses.

To assist Owners and Trainers, the following areas of the Rules and Regulations have been extracted here:

#### **HORSE ELIGIBILITY AND BLOOD TESTING**

ARO wish to remind Owners and Trainers that, at their discretion, horses may be blood typed and/or DNA tested as required to establish their parentage in accordance with Regulation 15(v) of the British Authority Regulations for Arabian Horse Racing. ARO will exercise this discretion at the time of entry, where circumstances, in their opinion, deem it necessary and irrespective of and against the original registration in a WAHO accepted stud book.

15. it has been parentage identified to a minimum of three generations and its pedigree contains named horses throughout in a minimum of three generations, to the satisfaction of ARO, and there is confirmation, to the satisfaction of ARO, that where the parentage has been verified it must have been verified for those three generations against the original blood or DNA Sample taken at the first registration. For the avoidance of doubt three generations means the parents, grandparents and great grandparents.
- 18.No Race can combine two horses with the same year of birth and the same dam. Where two or more horses have the same year of birth and the same dam they will be reduced to one by random ballot at the time for declaration under Regulation 80. Any horse bred by embryo transfer must be declared as such at the time of entry and failure to make such declaration will cause the horse to be subject to disqualification under Regulation (vii).

#### **VACCINATION PROCEDURES**

Please note the vaccination laws of the UK as below. **Failure to comply will result in the horse's entry being declared void.**

- 19.The Trainer must ensure that every horse that enters any racecourse when a meeting held under these Regulations takes place is accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is unrelated to and independent of the Owner of the horse, the Trainer of the horse and any Person who is employed by the Trainer. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 92 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:

- (i) A horse has received a first booster vaccination given no less than 150 days and no more than 215 days after the second component of the primary vaccination, and
- (ii) A horse has received booster vaccinations at intervals of not more than a year apart or such lesser time as the BHA may, in an emergency, decide.
- (iii) No vaccination must have been given on Raceday or on any of the 6 days before the race.
- (iv) A horse which fails to satisfy these requirements is not qualified to run, unless the Stewards direct otherwise.

*N.B.1 The above are minimum requirements. The vaccines administered must either appear on the list of equine influenza vaccinations which is maintained by BHA or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.*

*N.B.2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.*

98. A horse is not qualified to start for a race:

- (vii) If it has not been vaccinated at all or if it has received any vaccination against equine influenza on Raceday, or on any of the 6 days before Raceday;

#### **MEDICATION & DOPING CONTROL:**

International Trainers **must** be familiar with the rules regarding UK medication and doping control:

<http://www.britishhorseracing.com/resource-centre/anti-doping-medication-control/>

#### **STABLE SECURITY**

International trainers must provide the names and dates of birth of **all** their stable staff who will be attending their runners on the day. **All** staff, including trainers, wishing to enter the stables will be required to show their passport to the Stable Manager. Only individuals named by the trainer at the declaration stage will be admitted to the stables.

**ALL HORSES WILL NEED A STABLE. NO HORSE WILL BE PERMITTED TO RUN FROM THE HORSEBOX UNLESS PRIOR PERMISSION HAS BEEN GRANTED BY THE BHA.**

#### **WHIP REGULATIONS**

All Trainers **must** ensure that their jockeys are familiar with the regulations concerning the use of the whip in the UK races.

**NEITHER ARO, NOR THE BRITISH HORSERACING AUTHORITY, CAN BE HELD RESPONSIBLE FOR ANY RIDER'S LACK OF FAMILIARITY WITH THE NECESSARY RACE REGULATIONS.**

The current rules and penalties can be found online at:

<https://rules.britishhorseracing.com/#!/book/34/chapter/s3201-table-of-penalties>
